Glory Mirror is looking perfect at halls or in special concept stores. Behind the mirror surfaces, smart shelves are hidden. Manipulation with six movable parts is intuitive and unobtrusive. You will find the way how to open each wing easily. The special surface treatment is possible to choose in the different metal surface options. The authentic wood stained colour is possible to create on request.

Glory Mirror, 2019, hand — stained plywood, polished stainless steel

Plody studio is focused on bespoke furniture and interiors.
